

The Following Pricelists are included in this edition of the Trailblazer:

To access our online Excel Pricelists please go to <https://www.conestogatile.com/pricelists>

Ape – We are excited to introduce a new tile manufacturer to our stocking lineup. Ape is a ceramic and porcelain tile manufacturer out of Spain. We will be stocking six unique series of wall tile to complement a variety of design styles. These series have on trend shapes and fun accent

colors to create one of a kind backsplashes, showers and more! Altea is a glossy 3” x 12” with an old world handmade look and is available in five soft color options. Calpe is the same 3” x 12” white body ceramic

with a matte finish. Dynamic is also available in a glossy 3” x 12” but comes in six bright crackled colors and offers a fun scale shape to give the series even more personality. Grunge has an urban industrial look with its metallized surface and its matte and glossy effects. This 3” x 12” comes in five colors. Switch is another fun new series. This series offers glossy and matte pickets and small subway tile as well as a matte finish 4” hexagon that can be used on the floor. This metro inspired series comes in six on trend colors. Vintage offers the traditional subway tile look in two sizes and seven color options. An elongated hexagon adds a classic but modern accent to the series. We will also be stocking three of the colors in a 6” x 6”. Several different display options will be available for showcasing these series.

Casa Dolce Casa – We will be stocking a new marble look porcelain series from this Italian manufacturer. We have selected four unique marble looks to add to our already extensive variety of stocked marble graphics. This series, Stones & More 2.0, offers 3” x 12”, 12” x 24” and mosaics. 24” x 48” will be stocked in two of the colors. There is a slight price increase on existing products in this new pricelist.

Epro – Epro is one of America’s premier manufacturers of handcrafted tile. They offer a complete product line that features an impressive array of sizes, colors and special effects. This is their first price increase in three years. Several new sizes, shapes, colors and collections have been introduced since their last pricelist. Most recently they have added the Woodland collection, a wood textured surface in select Potters Wall and Potters Loft colors and shapes. 8” Hex Mosaics and the Petal shape have also been added to several collections.

Pamarva - Our private label pricelist has been updated for this edition of the Trailblazer. Several products received a price reduction. This includes Linea, a large format wall tile that has several 3-D options, and Prima, a popular choice if you are looking for the traditional solid black and white for a checkerboard pattern. There are a few products that received a slight price increase and many that remain the same for this year. The only addition is Station, which was introduced a few months ago.

Pricelists continued

Seneca – Seneca Tile has been providing handcrafted, handmade, and handglazed tile since 1978. All products are made from the red clay found throughout the Midwest. They have added several shapes and colors in recent years. The newest shape available is an 8” Circle. Seneca Circles come in an 8” diameter and are available with large or small inserts. They offer them glazed or unglazed in the Quarry Paver collections.

This is our first price increase in Seneca in three years.

Summitville – This is the first new pricelist from Summitville in over two years. This American made and owned manufacturer of Premium grade quarry tile, heavy-duty industrial floor brick and precision sized thin brick is introducing Thin Brick Blends with this pricelist. Blends are made up of stocking colors so lead times are similar to a standard one-color order. Existing products from this manufacturer received a slight price
