

Important Update: Delivery Fee Adjustment

We want to inform you of an upcoming change regarding our truck delivery fee. After careful consideration, due to increased equipment and maintenance costs, we will be adjusting the delivery stop fee to \$49. We understand the significance of this adjustment and assure you it's necessary to maintain the quality of our services. Your continued support means everything to us, and we remain committed to providing you with the best value and service possible. Customers currently on LTL third party carrier programs are not affected by this change.

The Following Pricelists are included in this edition of the Trailblazer:

To access our online Excel Pricelists please go to <https://www.conestogatile.com/pricelists>

Jeffrey Court – In Chapter 14, The Press, Jeffrey Court has introduced new colors and patterns inspired by classic mosaic designs from the early 1900s. These mosaics are crafted using colored glass that is pressed and fired similar to porcelain, resulting in a smooth, full-body glass mosaic series suitable for

both floor and wall installations. Additionally, Chapter 19, European Countryside, was added to their collection last August and is now included in the latest price list. This series features wet-cast concrete decorative field tiles, along with Calacatta Oro and Venetian Beige marble options. While most prices remain unchanged in the new price list, there are some reductions in several chapters, as well as a few increases.

Marble Sills – This Marble Sills pricelist includes a slight price increase on all products.

Mariner – We will be stocking a new series from this Italian Manufacturer later this spring. Moonstone is inspired by Brazilian quartzite, offering warm colors and unique details. This series will be stocked in four colors and three field tile sizes, including the elusive 12” x 12”.

Roca – Roca offers a variety of wall tiles, porcelain floor tiles - from large format to mosaics, and various decorative tile choices. Select items are showcased in our Design Impressions displays and other wall tile waterfall displays that we have offered over the years. This pricelist includes eight new series and new additions to several others. Prices on current products have seen slight increases and decreases.

Rondine – Coming soon, Angel Heart! This breccia marble inspiration introduces the beauty, richness, and cultural legacy of natural stone from ancient Tuscan quarries, in a durable porcelain tile series. This collection is tailored for striking surface designs, featuring two finishes in six color options. A mixed finish hexagon mosaic offers a unique option for floors and walls.

ADDED

SHJ80W SHJ100PG SHJ100W

Thin-set Update - New Water Range Recommendation. A portion of ordinary Portland Cement has been replaced with limestone, reducing the carbon dioxide emissions, while maintaining comparable final strength. This requires an adjustment in the amount of water used. It is important to read the bag before use.
