**FINISHING, EDGE-PROTECTION & TRANSITION PROFILES FOR FLOORS**

**DECO**

Designed to provide decorative lines within tile coverings and edge protection at transitions from tile coverings to other same-height surface coverings such as wood or carpet. This profile features a 1/4" wide visible surface.

<i>Color:</i> Chrome-Plated Solid Brass (MC)									
11/32" x 8'	MC90D		234.95	EA	1/2" x 8'	MC125D		248.90	EA

17/32" x 8'	E140D		61.05	EA					

**RENO-RAMP**

Designed to protect tile edges and provide a smooth transition between tile coverings and floor coverings at lower elevations or finished concrete.

<i>Color:</i> Satin Anodized Aluminum (AE)									
1/4" x 8'	AERP60B50 (2" Slope)		60.35	EA	1/2" x 8'	AERP125B90 (3-1/2" Slope)		81.65	EA
3/8" x 8'	AERP100B65 (2-1/2" Slope)		60.90	EA	9/16" x 8'	AERP150B90 (3-1/2" Slope)	a	84.45	EA
1/2" x 8'	AERP125B65 (2-1/2" Slope)		63.50	EA	3/4" x 8'	AERP200B90 (3-1/2" Slope)	a	88.65	EA
<i>Note:</i> a) 9/16" and 3/4" are not ADA-Compliant.									

**RENO-RAMP-K**

Designed to protect tile edges and provide a smooth transition between tile coverings and floor coverings at lower elevations or finished concrete. Features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

<i>Color:</i> Satin Anodized Aluminum (AE)									
1/2" x 8'	AERPK125B65 (2-1/2" Slope)							74.10	EA

**RENO-T**

Designed to provide transitions between existing same-height hard surface floor coverings primarily in retrofit applications.

<i>Color:</i> Brushed Stainless Steel 304 (EB)									
17/32" x 8'	T9/14EB		45.40	EA	1" x 8'	T9/25EB		63.80	EA

<i>Notes:</i> To complete part number replace hyphens with color code. Example AU80--, for Satin Brass Anodized Aluminum # is: AU80AM.									
a) When leading edge rests on top of lower surface covering, size 9/16" is not ADA-Compliant.					b) 11/16" and 3/4" are not ADA-Compliant.				

**RENO-V-VT-VB**

RENO-V is designed to protect tile edges and provide a smooth transition between tile coverings and floor coverings at lower elevations.

The profile features a movable transition arm that allows the profile to adjust to the height of the adjacent floor covering via a ball-and-socket joint and eliminates trip hazards. RENO-V features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

<i>Color:</i> Satin Anodized Aluminum (AE)									
5/16" x 8'	AEVT80B20	(3/4" Slope)	69.55	EA	9/16" x 8'	AEVT150B20	(3/4" Slope)	75.55	EA

**SCHIENE**

Schiene features an 87° angle to transfer point loads and protect tile edges in tile coverings. Typical applications include edge protection where tile is bordered by carpet, at expansion joints, or as a decorative edging for stairs. Schiene in aluminum and brass, in sizes 1/4" and higher, features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

**DESIGNBASE-SL**

The Schluter DESIGNBASE-SL profile is an alternative to baseboard, which is available in anodized and color-coated aluminum. DESIGNBASE features a clean, polished look, and is simply attached to the wall with a suitable adhesive. An optional sealing lip accessory is available to protect the floor/wall transition from moisture penetration and to reduce the transmission of impact sound.

**DESIGNBASE-SL-E**

The Schluter DESIGNBASE-SL-E profile is made of brushed stainless steel and provides a modern alternative to traditional baseboards. The profile is available in 4-3/8" or 6-3/8" heights to meet code requirements for a commercial cove base. DESIGNBASE features a sleek look and has an optional sealing lip accessory to protect the floor/wall transition from moisture penetration and to reduce the transmission of impact sound. Matching corners, end caps and connectors are available to create a clean, finished design.

**ECK-KHK**

A stainless steel profile for inside wall corners that produces a radiused edge for a clean, decorative finish. ECK-KHK provides a 5/16" radius to prevent the accumulation of dirt and make cleaning simple. Thus, the profile is especially suited for commercial kitchens, bathrooms, food processing plants or any environment where a sanitary corner is desired. ECK-KI is subsequently bonded to the inside corners of existing tile or other wall coverings. As such, the profile can be installed as a repair so that existing, damaged corners don't have to be replaced.

**FINEC**

A finishing and edge protection profile for the external edges of tile coverings or mosaics. The finishing leg of the profile protects the covering edges from mechanical damage, and features a very slim, elegant reveal. FINEC is ideal for protecting mitered edges, while creating a discreet trim for a minimalist design.

**FINEC-SQ**

FINEC-SQ is a finishing and edge-protection profile for outside corners of tile coverings. This minimalistic wall profile features a symmetrical 3/16" profile reveal that combines the slim look of Schluter-FINEC with the square shape of Schluter-QUADEC and a perforated anchoring leg that is secured in mortar bond coat beneath the tile. This profile is available in larger sizes to accommodate thicker tiles and is ideal for protecting mitered edges.

**Color:** Satin Anodized Aluminum (AE)

7/16" x 8'	FSQ110AE	27.45	EA	9/16" x 8'	FSQ150AE	27.80	EA
1/2" x 8'	FSQ125AE	27.75	EA				

**Note:** FINEC-SQ can be combined with QUADEC corner pieces.

**FINEC-SQ - TRENDLINE Textured Color-Coated Aluminum**

**JOLLY**

Schluter-JOLLY is a decorative profile featuring a 90° angle designed to finish and protect external corners and other tile edges in wall applications. Its 90° angle creates a clean, flush look on wall corner installations, and the joint spacers on both sides of the profile ensure consistent grout joints and perfect symmetry. Matching corners are available, which feature innovative plug-in connections that result in clean, visually appealing corner applications.

**JOLLY-P - PVC (P)**

Schluter-JOLLY-P is a PVC profile featuring an 87° angle designed to finish and protect external corners and other tile edges in wall applications. The vertical wall section of the profile provides a decorative finish and protects adjacent tiles. JOLLY-P in sizes 1/4" and higher features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

Colors: Bahama (BH) Classic Grey (PG) Light Grey (HG)  
Black (GS) Grey (G) Sand Pebble (SP)  
Bright White (BW) Light Beige (HB) White (W)

Notes: a) Stocked in color Bright White (BW) only. b) Stocked in colors Bright White (BW) and Sand Pebble (SP) only.  
To complete part number replace hyphens with color code. Example --45, for Black # is: GS45.

**QUADEC**

For tiled edges and outside corners of tiled surfaces. The reveal of the profile forms a square outer corner along the surface edge. Can also be used as an accent within tile fields on both floors and walls. Can be combined with the QUADEC-FS feature strip profile and/or the DESIGNLINE border profile for further design options. QUADEC in Stainless Steel can also be used as a stair nosing or floor transition profile.

**Note:** To complete part number replace hyphens with color code. Example PQ60--, Bright White # is: PQ60BW.

**QUADEC-FS**

A double-rail feature strip profile that features a recessed section to which tile is bonded. Can be combined with QUADEC profile.

<b>Color:</b>	Brushed Antique Bronze Anodized Aluminum (ABGB)			<i>Inside /Outside Corner/End Cap:</i>	
5/16" x 8'	QF8/50ABGB	68.45	EA	5/16"	EV/QF8/50ABGB
<b>Color:</b>	Polished Chrome Anodized Aluminum (ACG)			<i>Inside /Outside Corner/End Cap:</i>

5/16" x 8'	QF8/50AT	50.60	EA	5/16"	EV/QF8/50AT

**QUADEC-K**

A variant of the QUADEC profile without an anchoring leg. It features an open cavity that is filled with thin-set mortar to secure the profile in the assembly. Alternatively, the profile may be installed with an adhesive such as KERDI-FIX. QUADEC-K is installed in wall applications (e.g., wainscotings & bases) with coverings up to 1/2" thick. This profile is particularly suited for finishing edges in retrofit applications such as thin porcelain panel installation over existing wall tiles.

<b>Color:</b>	Brushed Antique Bronze Anodized Aluminum (ABGB)			<i>Inside /Outside Corner/End Cap:</i>	
1/2" x 8'	Q125ABGBK	34.95	EA	1/2"	EV/Q125ABGB

**REMA**

A system for creating concealed access panels in tiled walls without impairing the visual appearance of the tile covering.

REMA	Access Panel Kit	(Set includes 4 Magnets & 4 Mounting Plates)	13.85	SET
------	------------------	--	-------	-----

**RONDEC**

A finishing and edge-protection profile for tiled edges and outside corners of tiled surfaces. Can also be combined with the DESIGNLINE profile.

**SCHIENE**

Schluter-SCHIENE is an edging profile featuring an 87° angle designed to finish and protect external corners and other tile edges. Though SCHIENE is typically used in floor applications, the finishes listed in this section are specifically suited for use in wall applications. SCHIENE in sizes 1/4" and higher features an integrated joint spacer that establishes a defined joint cavity between the tile and the profile.

**Color:** Bright Black Anodized Aluminum (AGSG)

a) Not available in color Red Brown (RB).

**SCHIENE-STEP - see section: STAIR-NOSING PROFILES**

**STAIR-NOSING PROFILES**

**RONDEC-STEP - see section: FINISHING & EDGE-PROTECTION PROFILES FOR WALLS & COUNTERTOPS**

**SCHIENE-STEP**

A finishing and edging profile for ceramic tile and natural stone installations on countertops, stairs and tile over tile applications on walls. The top of the profile features a vertical wall section that finishes and protects the tile from damage, while the vertical leg covers the edge of the sub-assembly, top of the riser or existing wall tile edge.

Available in anodized aluminum and brushed stainless steel versions which have different shapes and intended uses. The stainless steel version is available in three vertical leg lengths: 1-1/2" for countertops, 1-3/16" for stairs and 7/16" for tile over tile applications. The anodized aluminum version is intended for residential stair applications (stairs not exposed to heavy traffic). It is available in two vertical leg lengths, 1-3/16" and 1-1/2". The ribbed vertical leg covers the sub-assembly or top of the riser. The integrated joint spacer establishes a defined joint cavity between the tile and the profile.

**Color:** Brushed Stainless Steel 304 (EB)

Notes: a) Special Order Only, call Customer Service Department for availability.

To complete part number replace hyphens with color code. Example GSEB90--, for Transparent # is: GSEB90T.

**TREP-GK**

Designed to protect tiled stair edges & provide an easily visible, slip-resistant wear surface. Suitable for interior & exterior use in areas subjected to heavy foot-traffic. The surface features a self-adhesive non-slip tread with an embedded mineral grain coating. TREP-GK is subsequently bonded to existing installations. As such, can be installed as a repair so that existing damaged stair treads do not have to be replaced.

**TREP-V**

An Anodized Aluminum profile with a PVC tread designed to protect tiled stair edges. The specially textured slip resistant tread makes TREP-V well suited for use in areas with heavy foot traffic, such as offices or public buildings. The replaceable PVC tread is available in a variety of colors including high visibility options. TREP-V is available with either a narrow (TREP-V 42) or wide (TREP-V 60) tread. End caps are also available.

**DILEX-AHKA**

An anodized aluminum, cove-shaped profile for transitions between walls to be tiled & previously finished floors. The profile features a single trapezoid-perforated anchoring leg that is secured in the mortar bond coat & a dovetailed channel, which can be bonded to floor surfaces using KERDI-FIX, epoxy resin, mortar, etc. A 3/8" radius cove section forms the visible surface & prevents the accumulation of dirt, making cleaning simple. Prevents surface water penetration & silicone, thin-set meets maintenance & hygienic requirements of commercial kitchens, bathrooms, food processing plants, or any tiled environment where a sanitary cove base is desired.

**Color:** Brushed Chrome Anodized Aluminum (ACGB)

----------------	-------	------	---------------	-----	----------------	-------	------	---------------	-----

**DILEX-F**

A surface joint profile with rigid, recycled PVC anchoring legs and a narrow replaceable silicone inlay that ties together tile fields to form a seamless visible surface. The carrier profile (DILEX-FCS) has a protective cover that is removed after tile installation and replaced with the selected color of silicone insert (DILEX-FIS). The trapezoid-perforated anchoring legs transfer movement to the profile movement zone. The special silicone inlay is equipped with anti-stretch properties and a low-friction coating that repels dust. The inlay is approximately 1/8" wide when installed and available in 10 colors to match the grout. The DILEX-F system is suitable for residential to medium-duty commercial applications subject to light mechanical loads (e.g., offices and stores).

Colors: Black (GS) Cream (C) Grout Grey (FG) Stone Grey (SG)  
Bright White (BW) Dark Anthracite (DA) Light Beige (HB)  
Classic Grey (PG) Grey (G) Sand Pebble (SP)

*Carrier Profile with Protective Cover*

**DILEX-HKS- continued**

**Notes:** a) Special Order Only, call Customer Service Department for availability.  
b) Grey PVC only.  
To complete part number replace hyphens with color code. Example HKSV2AU8/O7--, for Black # is: HKSV2AU8/O7GS.

**DILEX-HKU**

A Stainless Steel cove-shaped profile for inside wall corners and floor/wall (including countertop/backsplash) transitions. May be used with floor coverings other than ceramic and stone tile, provided that the floor coverings are fastened or adhered (i.e., no floating floors). The profile features a single anchoring leg that turns inward, which allows it to be used with different thicknesses of tile. DILEX-HKU is available with either a 3/8" or 1-7/16" radius cove section. The cove section forms the visible surface and prevents the accumulation of dirt, making cleaning simple. It prevents surface water penetration and meets the maintenance and hygienic requirements of commercial kitchens, bathrooms and food-processing plants or any tiled environment where a sanitary cove base is desired.

**3/8" Radius Cove Section**

7/16" Wide KSE/-- Replacement Thermoplastic Rubber Insert Only 19.05 EA

Notes: a) Not available in colors Cream (C), Dark Anthracite (DA), Grout Grey (FG) and Stone Grey (SG).  
To complete part number replace hyphens with color code. Example EKSN80--, for Classic Grey # is: EKSN80PG.

**DILEX-MOP - Mortar Bed Movement Joint**

A screed joint profile with a 5/16" wide movement zone. Designed to provide movement joints in tile installations that are set in a mortar bed.

Color: Grey (G)									
1-3/8" x 8'	MOP35G		22.20	EA	2-5/8" x 8'	MOP65G		32.90	EA
2" x 8'	MOP50G		28.25	EA					

**DILEX-MP/-MPV**

A screed joint profile with a 5/16" wide movement zone. Adjusts to the thickness of the mortar bed & tile surface using the DILEX-MPV extensions.

Colors: Black (GS) Grey (G) Light Beige (HB)									
1-3/8" x 8'	MP35--							26.05	EA
9/16" x 8'	MPV15	Extension Profile						17.60	EA
1" x 8'	MPV25	Extension Profile						18.95	EA

Note: To complete part number replace hyphens with color code. Example MP35--, for Brick Red # is: MP35ZR.

**DILEX-PHK**

A PVC, cove-shaped profile for inside wall corners, countertop/backsplash transitions & floor/wall transitions in applications where limited movement is expected. DILEX-PHK provides a 3/8" radius to prevent the accumulation of dirt & makes cleaning simple. Also prevents surface water penetration & meets the maintenance and hygienic requirements of commercial kitchens, bathrooms, food processing plants, or any tiled environment where a sanitary cove base is desired.

Colors: Bahama (BH) Classic Grey (PG) Light Beige (HB) White (W) Bright White (BW) Grey (G) Sand Pebble (SP)									
5/16" x 8'	PHK1S80--		27.90	EA	1/2" x 8'	PHK1S125--		29.90	EA
3/8" x 8'	PHK1S100--		29.45	EA					
	E90/PHK1S/--	Outside Corner, 90°						4.00	EA
	E135/PHK1S/--	Outside Corner, 135°						4.00	EA

	I135/PHK1S/--	Inside Corner, 135°						4.00	EA
	E/PHK1S/--	End Cap						4.00	EA
	V/PHK	Connector						2.25	EA

**DILEX-STF**

DILEX-STF is a maintenance-free expansion joint profile system made of aluminum. The interlocking center section allows for movement in 3 directions - horizontal, vertical, and along the length of the profile. The profile is fastened to the substrate with screws for a secure installation.

Color: Aluminum (A)

*1-9/16" Structural Movement Joint Profile:*

7/8" x 10'	ASTF2240/300	668.75	EA
1-9/16" x 10'	ASTF4040/300	763.80	EA
2-1/16" x 10'	ASTF5240/300	800.30	EA

*2" Structural Movement Joint Profile:*

7/8" x 10'	ASTF2250/300	704.65	EA
1-9/16" x 10'	ASTF4050/300	800.30	EA
2-1/16" x 10'	ASTF5250/300	836.20	EA

Note: Schluter keeps limited quantities in their inventory. Please contact Customer Service for availability. Items not in their stock require 7-9 weeks delivery time.

**WATERPROOFING, UNCOUPLING & DRAINAGE MEMBRANES**

**DITRA-DITRA-XL**

Uncoupling membrane with a grid structure and an anchoring fleece laminated to the underside. In conjunction with tile coverings forms an uncoupling, waterproofing and vapor management layer while providing support/load distribution. Waterproofs and allows moisture in the substrate to evaporate. Allows ceramic tile installations over single-layer plywood or OSB subfloors. Ideal for interior or exterior tile and stone installations.

**REMOVABLE FLEECE**
**SCHLUTER-REFLEECE**

Schluter-REFLEECE is a removable fleece used to create temporary floor coverings. Made of recycled PET with a self-adhesive coating on the back, REFLEECE measures 1/32" thick and is suitable for the application of temporary, removable tile and natural stone coverings. REFLEECE is easy to install and can be removed during deconstruction without causing damage to the existing subfloor. An impact sound improvement value up to 9dB was measured (according to DIN EN ISO 10140) for this assembly. Install with the Schluter-KERDI-BOARD-ZSA adhesive tape for connecting REFLEECE at the seams.

**SHOWER SYSTEM**

**KERDI-DRAIN and KERDI-DRAIN-H**

KERDI-DRAIN and KERDI-DRAIN-H are floor drains with an integrated bonding flange that provides a large contact area for a secure connection to the KERDI waterproofing membrane at the top of the assembly. Both KERDI-DRAIN and KERDI-DRAIN-H are appropriate for both mortar bed and KERDI-SHOWER-T/-TS/-TT shower tray applications. The bonding flange is sloped to simplify installation of the mortar bed. The KERDI-DRAIN flange provides a vertical connection to the drain pipe and is available in ABS or PVC with 2" or 3" outlet, and stainless steel with a 2" or 3" no-hub outlet or 2" threaded outlet. The KERDI-DRAIN-H flange provides a horizontal connection to the drain pipe and is available in ABS or PVC with a 2" outlet. It is ideal for applications where the use of a vertical connection to the drain pipe is not possible or practical. The horizontal outlet allows the positioning of the drain in the desired area regardless of drain pipe location.

Notes: KERDI-DRAIN Grates are sold separately.

a) Includes 4 inside corners, 2 outside corners, 3/4" pipe seal and 4-1/2" mixing valve seal.

b) Also contains a 3.38 oz. tube of KERDI-FIX.

c) When using a flange with 3" outlet, a 6" grate is recommended.

d) Includes 40 inside corners, 20 outside corners, 10 - 3/4" pipe seals and 10 - 4-1/2" mixing valve seals.

**KERDI-DRAIN-F**

KERDI-DRAIN-F is a floor drain specifically designed to allow connections to Schluter-DITRA and DITRA-HEAT uncoupling membranes in floor applications. The drain body is available in polypropylene or stainless steel, each with a laminated Schluter-KERDI collar that ensures a simple connection to the uncoupling membrane on the floor and at wall transitions. KERDI-DRAIN-F features a flat, narrow bonding flange to allow for placement against walls or in corners on floors. It can be combined with virtually any KERDI-DRAIN grate assembly, with the exception of the tileable grate and the 6" square and round grates.

KDF2FL	Polypropylene with 2" NPT Outlet			65.65	EA
KDF2EFL	Stainless Steel with 2" No-Hub Outlet			298.10	EA
KDF2ETHFL	Stainless Steel with 2" Threaded Outlet			331.75	EA

Notes: The grate assembly is sold separately. Includes 1 Vertical height adjustment collar and 1 construction cover.

**KERDI-DRAIN-A**

KERDI-DRAIN-A Adaptor Kits are used to convert traditional clamping ring drains to integrated bonding flange drains when removal of the clamping ring drain is not practical. A stainless steel adaptor ring with an overmolded rubber gasket replaces the clamping ring and is sealed to the existing drain body using KERDI-FIX. The bonding flange then slides into the adaptor ring and seals against the rubber gasket. Adaptor kits are suitable for both mortar bed and KERDI-SHOWER-T/-TS/-TT shower tray applications.

KDA5MFLKABS	Adaptor Kit with Flange, height adjustment collar and 5-1/4" Adaptor Ring		a	108.00	EA
KDA7FLKABS	Adaptor Kit with Flange, lateral adjustment ring and 7-1/2" Adaptor Ring		a	148.05	EA
KDAM5FLKABS10	Adaptor Kit with Flange, height adjustment collar and 5-1/4" Adaptor Ring	(10 Pack)	b	971.80	EA

Notes: KERDI-DRAIN Grates are sold separately.

a) Includes 4 inside corners, 2 outside corners, 3/4" pipe seal, 4-1/2" mixing valve seal and 3.38 oz. tube of KERDI-FIX.

b) Includes 40 inside corners, 20 outside corners, 10 - 3/4" pipe seals, 10 - 4-1/2" mixing valve seals and 10 - 3.38 oz. tubes of KERDI-FIX. 10-packs are packaged in bulk, not individually boxed.

- Notes:** a) Includes grate, frame, height adjustment collar and lateral adjustment ring.  
b) To complete part number replace hyphens with color code. Example KDIF4GRK---D6, for Brushed Classic Gold # is: KDIF4GRKEBCGD6.  
c) Stocked in color Matte Black (MGS) only. d) Includes 10 - grates, 10 - frames, 10 - height adjustment collars and 10 - lateral adjustment rings.  
e) Stocked in colors Brushed Brass Anodized Aluminum (AMGB) and Brushed Nickel Anodized Aluminum (ATGB) only.  
f) Includes tileable covering support, spacer and lateral adjustment ring.  
g) Includes grate and frame with integrated height adjustment collar and lateral adjustment ring.

**KERDI-DRAIN - TAMPER PROOF SCREWS**

Designed as a high security accessory for the KERDI-DRAIN. Ideal for loss prevention and anti-theft, these tamper proof screws are used in environments where tamper resistance is desired or required (e.g., healthcare or education facilities, etc.). Phillips head screws are included with the KERDI-DRAIN. The tamper-proof screws as well as the driver bit must be purchased separately.

KD/TPSCRW	Tamper Proof Screw	3.65	EA
KD/TPWRCH	Driver Bit	17.55	EA

**KERDI-SHOWER-CB**

KERDI-SHOWER-CB is a height compensation board made of lightweight expanded polystyrene. Two versions are available: • The 1"-thick compensation board is used to accommodate the adaptor ring height when installing the KERDI-DRAIN-A adaptor in conjunction with the KERDI-SHOWER-T/TS/TT shower trays. • The 3-1/2"-thick compensation board is used to accommodate the drain body and waste pipe height, when installing the KERDI-DRAIN-H in conjunction with the KERDI-SHOWER-T/TS/TT shower trays.

48" x 24" x 1"	KSCB256101220	Compensation Board 48" x 24" x 1"	a	32.60	EA
48" x 24" x 3-1/2"	KSCB906101220	Compensation Board 48" x 24" x 3-1/2"		131.10	EA

*Note:* a) Sold in bundles of 6 Each/Bundle. Please order in multiples of the bundle quantity.

**KERDI-LINE**

A low profile linear floor drain specifically designed for bonded waterproofing assemblies. KERDI-LINE can be installed adjacent to walls or at intermediate locations in showers, wet rooms, and other applications that require waterproofing and drainage. The floor can be sloped on a single plane to KERDI-LINE, which enables the use of large-format tiles and creates interesting design opportunities. The KERDI-LINE channel body is made of formed stainless steel and features a collar made of KERDI for a secure waterproof connection. The grate assembly is available in six design options: A - closed-design, B - perforated, D - frameless, tileable covering support, E - Floral, F - Curve and G - Pure. If KERDI-LINE is placed at shower entrance it is recommended that grate assembly A or D is chosen and that the drainage openings span the maximum width of the entrance to limit potential overflow; secondary drainage (e.g., KERDI-DRAIN) may be required in the drying area. Grate and frame assemblies A and B are available in brushed stainless steel or stainless steel with chrome finish, and can be adjusted for use with tile coverings from 1/8" to 1" thick. The tileable covering support can accommodate any thickness of tile covering. Grate and frame assemblies E, F and G (KERDI-LINE-STYLE) are available in brushed stainless steel and can accommodate tile coverings from 1/4" to 11/16" thick.

Notes: Includes grate and grate frame with height adjustment spacers (not included with frameless tileable grate).

a) A Stainless Steel Plate with Schluter KERDI laminated on the surface to allow for bonding of ceramic or stone tile, and is used without a frame.

b) To complete part number replace hyphens with color code. Example KL1AR19---50, for Matte White (MBW) # is: KL1AR19MBW50.

c) Driver Bit for tamper-proof screws sold separately. Please see page 42.

**KERDI-LINE-STYLE**

These shower drain grates feature brand new designs that fit into a virtually invisible frame, resulting in a stylish and truly seamless look for shower floors.

Features solid stainless steel with elegant brushed finish, thin discreet frame and adjustable to fit all common tile thicknesses.

Color: Brushed Stainless Steel 304 (EB)

Notes: Includes grate and grate frame with height adjustment spacers (not included with frameless tileable grate). KERDI-LINE Channel Body sold separately.

**KERDI-LINE-A**

KERDI-LINE-A is an adaptor kit designed to convert a traditional clamping ring drain to a KERDI-LINE linear drain when removal of the clamping ring drain is not practical (e.g., when it is set in concrete slabs). The stainless steel adaptor ring features an over-molded rubber gasket and a variety of perforated hole patterns that align with most common clamping ring shower drains. The adaptor ring replaces the clamping ring and is attached to the drain body using the clamping ring bolts. This connection is made watertight via the rubber gasket and KERDI-FIX adhesive/sealant that is included. The KERDI-LINE channel body outlet slides into the adaptor ring, with a tight fit to the over-molded rubber gasket, ensuring a watertight seal. The KERDI-LINE-A adaptor kit is suitable for both mortarbed and KERDI-SHOWER-LT/LTS shower tray applications.

5-1/2"	KLAM5K	Linear Drain Adaptor Kit			54.60	EA
5-1/2"	KLAM5K10	Linear Drain Adaptor Kit	(10 Pack)	a	490.80	EA

Note: 10-packs are packaged in bulk, not individually boxed.

**KERDI-LINE-FC**

A stainless steel cover plate for use with the Schluter-KERDI-LINE linear floor drain to create a seamless look in applications where multiple drains are installed end to end.

KERDI-LINE-FC is designed for use with either the solid or perforated grates.

**KERDI-LINE STRAINER**

The KERDI-LINE Strainer is a hair catcher customized to fit inside the KERDI-LINE channel body to trap and collect hair. Simple to remove and clean, the hair catcher fits discreetly into the drain to prevent hair clogs that can lead to blocked pipes.

KLVZSF	Strainer	4.05	EA
--------	----------	------	----

**KERDI-LINE-VARIO**

The KERDI-LINE-VARIO grate and channel are made of formed stainless steel and are designed to be trimmed to length to ensure a perfect fit in custom applications. The channel features a drainage opening cut in the center that can be positioned anywhere within the overall trimmed length of the channel to avoid obstacles encountered during construction (e.g., floor joists). This allows for increased flexibility in the placement of the flange within the shower.

	KLVR2FLK	Flange Kit, Polypropylene Drain Body with 2" Drain Outlet (Threaded)	c	149.20	EA

- Notes:**
- a) The shortest allowable length to cut the channel and grate is 10" and the minimum recommended tile thickness to use with the KERDI-LINE-VARIO channel is 3/8". The kit includes the grate, channel and 2 end caps.
  - b) To complete part number replace hyphens with color code. Example KLVRID5----122, for Bronze (TSOB) # is: KLVRID5TSOB122.
  - c) The KERDI-LINE-VARIO flange is suitable for use with KERDI-SHOWER-LT/LTS prefabricated shower trays as well as in mortar bed applications. Includes construction cover, downspout, polypropylene flange w/integrated KERDI collar, ABS and PVC coupling, flange support, waterproofing corners (4 inside, 2 outside), 3/4" pipe seal, 4-1/2" mixing valve seal, cleaning brush and grate removal tool.

**PREFABRICATED SUBSTRATES**

**KERDI-SHOWER-LT/LTS**

Polystyrene sloped trays with integrated Schluter-KERDI waterproofing. These prefabricated shower trays are designed to integrate with the Schluter-KERDI-LINE.

**KERDI-SHOWER ACCESSORIES**

Accessories are used to enhance tiled shower applications, providing shelving, splashguards at the entrances to curbless showers, support channels for glass walls, and wall finishing that eliminates the need to cut wedges of tile in KERDI-LINE applications.

**SHELF-E**

A brushed stainless steel corner shelf designed for tiled walls. Available in 3 shapes and in the Floral and Curve STYLE designs, the shelf features 3/32" thick anchoring tabs which allow for easy installation either in tandem with the tile, or as a retrofit application.

**Note:** To complete part number replace hyphens with color code. Example SWS1D6----, for Bronze # is: SWS1D6TSOB.

**SHOWERPROFILE-R**

A two part wall transition profile made of brushed stainless steel for covering the exposed wall area where the floor slopes down to a perimeter linear drain. A fleece fabric is laminated on the reverse of the profile for bonding with the tile adhesive. The two-part design can be seamlessly adjusted to any height between 29/32" and 1-25/32". The profile is available in lengths of 39" and 55" and can be cut to the desired length.

**Color:** Brushed Stainless Steel 304 (EB)

Length: 39"	SPRA23EB/100	Height adjustment from 29/32" to 1-3/8"	112.50	EA
Length: 39"	SPRA33EB/100	Height adjustment from 1-5/16" to 1-25/32"	122.65	EA
Length: 55"	SPRA23EB/140	Height adjustment from 29/32" to 1-3/8"	129.55	EA
Length: 55"	SPRA33EB/140	Height adjustment from 1-5/16" to 1-25/32"	145.00	EA

**SHOWERPROFILE-S (-SA/-SB)**

A two part profile with a tapered edge, designed to cover adjoining tile edges that become exposed as the shower floor slopes to accommodate drainage to the KERDI-LINE. The tapered profile features a visible surface of brushed stainless steel and a fleece fabric on the reverse for bonding with the tile adhesive. It is designed to be inserted into the U-shaped groove of the matching hard PVC support profile. The profile can be used for lateral transitions to the wall or the adjoining floor.

**Color:** Brushed Stainless Steel 304 (EB)

**SHOWERPROFILE-WS**

A two-part profile that forms a splashguard at the entrance of barrier-free showers. The anodized aluminum support profile is set in conjunction with the tile covering and can be combined with either a semi-circular lip or a collapsible upright straight lip. Both variants allow for wheelchair accessibility.

**Color:** Satin Anodized Aluminum (AE)

**PAVER SUPPORT SYSTEM**

**TROBA-LEVEL-PL 10**

Stackable paver supports that are designed to support tile pavers of different formats and thicknesses. The 1/8" joint spacers enable a uniform joint appearance while protecting against lateral movements in the covering. TROBA-LEVEL-PL 10 can be stacked up to heights of 7-7/8" and can also be combined with other TROBA-LEVEL paver supports.

3/8" TLPL10/10	Stackable Paver Support	(10 each per Package)	38.00	PKG
----------------	-------------------------	-----------------------	-------	-----

**TROBA-LEVEL-PLA 30**

Stackable paver support extensions that can be inserted between two TROBA-LEVEL-PL 10 stackable paver supports for a more economical way to achieve assembly heights of 2" or greater.

1-3/16" TLPLA30/10	Stackable Paver Support Extension	(10 each per Package)	44.10	PKG
--------------------	-----------------------------------	-----------------------	-------	-----

**TROBA-LEVEL-AP 1**

Leveling shims that are used to level the tile surface by adjusting the corners of each tile paver. These leveling shims are designed to lock in between the spacer tabs of the TROBA-LEVEL-LV 3, TROBA-LEVEL-PL 10, and TROBA-LEVEL-PLV 60 paver supports. The TROBA-LEVEL-AP 1 leveling shims can be stacked up to 10 shims high under each corner of the tile paver to compensate for variations in the substrate and/or paver thickness.

1/32" TLAP1	Leveling Shim	(250 each per Package)	57.65	PKG
-------------	---------------	------------------------	-------	-----

**TROBA-LEVEL-PLV 60**

Preassembled, adjustable paver supports that can be variably adjusted from 2-3/8" to 5-1/8" using the adjustment ring and two opposing threads. The joint spacer configuration of the TROBA-LEVEL-PLV 60 paver support enables stacking in combination with TROBA-LEVEL-PL 10 and -PLA 30. If necessary, TROBA-LEVEL-AP 1 leveling plates can be used for precision adjustment and leveling of the tile surface.

2-3/8" - 5-1/8" TLPLV60/6	Adjustable Paver Support	(6 each per Package)	88.31	PKG
---------------------------	--------------------------	----------------------	-------	-----

**TROBA-LEVEL-LV 3**

Stackable paver supports that are intended for low assembly heights. The supports can be cut for perimeter applications and feature 1/8" joint spacers. The joint spacer configuration of the TROBA-LEVEL-LV 3 paver support enables stacking in combination with TROBA-LEVEL-PL 10 and -PLA30.

1/8" TLLV3/10	Stackable Paver Support	(10 each per Package)	68.38	PKG
---------------	-------------------------	-----------------------	-------	-----

**TROBA-LEVEL-PLA 70**

Adjustable paver support height extensions that are designed to be added to the TROBA-LEVEL-PLV 60 adjustable paver supports between the height adjustment ring and the base plate. Multiple TROBA-LEVEL-PLA 70 paver support extensions can be used to reach the desired height (recommended maximum height: 15").

2-3/4" TLPLA70/6	Adjustable Paver Support Extension	(6 each per Package)	57.85	PKG
------------------	------------------------------------	----------------------	-------	-----

**TROBA-LEVEL-PLS 6**

Protective pads that provide additional protection to the waterproofing membrane under the base plates of TROBA-LEVEL-LV 3, TROBA-LEVEL-PL 10, or TROBA-LEVEL-PLV 60 paver supports. These protective pads feature four perforated tabs designed to maintain the position of the paver support on the pad.

1/4" TLPLS6	Protective Pad	(10 each per Package)	36.60	PKG
-------------	----------------	-----------------------	-------	-----

**TROBA-ZFK**

Joint spacers that ensure a uniform joint appearance for self-supporting porcelain tiles, natural stone, or concrete pavers installed directly on sand, gravel, or crushed stone beds. The joint width is 1/8", and the joint spacer height is 9/16". When thicker pavers are being installed, a joint spacer height of 1-3/16" can be achieved by snapping two joint spacers together.

9/16" TZFK3	Joint Spacer	(50 each per Package)	19.48	PKG
-------------	--------------	-----------------------	-------	-----

**EXTERIOR DRAINAGE MEMBRANES**

**TROBA-PLUS**

A durable subsurface drainage system that permits water to drain off freely and reliably. The closely positioned, cone-shaped studs are covered by a water permeable filter fabric. They serve to support the floor covering over the entire surface, thus creating a continuous drainage area above the waterproofing layer.

3' 3" x 41' TROBA-PLUS8 (134.50 SF/Roll)	Sub-surface Drainage System	409.45	EA

ACCESSORIES

**DITRA/KERDI Trowels**

Used to install DITRA and KERDI membranes.

TRL-DIT	DITRA Trowel - 11/64" x 11/64" Square-Notched	a
TRL-KER	KERDI Trowel - 1/8" x 1/8" Square-Notched	a
TRL-DHXL	DITRA-HEAT/DITRA-XL Trowel - 1/4" x 1/4" Square-Notched	a

*Note:* a) Schluter Trowels are listed on the Tools Price List under Trowels.

**PROCUT-TSM**

A cutting wheel with a diameter of 4-1/2" for conventional angle grinders. It produces especially clean cuts of Stainless Steel, Aluminum and Brass.

TSM115/1	Cutting Wheel	17.90	EA
----------	---------------	-------	----

**SNIPS**

Specifically designed to cut PVC trim profiles.

PSF	Cutting Tool	110.75	EA
PS90/45EK	Replacement Blade	33.90	EA
