**Now In Stock: Edimax Symphony - A Modern Take on Timeless Marble**

We're excited to announce that the **Edimax Symphony** collection is now in stock! This elegant glazed porcelain is inspired by three luxurious types of marble, each featuring soft, 3D-effect veining that brings depth and realism to any space.

**Moon** offers delicate, warm-toned veins that create an inviting and elegant atmosphere. **Persian**, with its soft blue veining reminiscent of gentle waves and drifting clouds, brings a sense of lightness and calm. **Snow** stands out with its striking black veining, offering bold contrast and balance — ideal for making a refined statement.

Stocked sizes include **12x24**, **24x48**, and **2x2 mosaics**, giving you flexibility for floors, walls, and accents. We're also stocking the **12x24 Ocean Deco** — a linear 3D accent tile that adds textural interest and completes this modern marble look.

Whether you're designing a serene retreat or a bold focal point, Symphony delivers beauty, versatility, and timeless appeal.

**Showcase the Style: 24" x 48" Tile Display Now Available**

Large format tiles, especially **24x48**, continue to rise in popularity—and for good reason. Their clean lines, minimal grout joints, and bold presence make them a go-to choice for modern, high-impact designs. Customers often want to see these impressive tiles in their full size, and we've got the perfect solution.

Our **24x48 display** is easy to use and holds up to **20 full-size pieces**, selected from our extensive offering of over **130 options**. You can tailor your display to highlight **stocked items from our Hanover, PA warehouse**, showcase **Made in the USA products**, or curate a combination that fits your customers' needs.

We've recently added two exciting series to the display program:

- **Edimax Symphony** — a modern marble look with 3D veining
- **Serenissima Soap Stone** — a stunning soapstone-inspired porcelain tile

Due to increased demand, we've added the **24x48 matte finish Soap Stone** to our regular stocked inventory.

Reach out to your **Conestoga Tile Sales Representative** to learn more about this impactful display and customize your selection to best serve your clients.

**The Following Pricelists are included in this edition of the Trailblazer:**

Both **Jeffrey Court** and **Natural Stone** have updated their pricing due to import-related tariffs. These changes are reflected in the new pricelists now available.

While there are increases overall, you may also notice some **price decreases on select Jeffrey Court items**. These adjustments were made to better align pricing across similar products in different colors, ensuring more consistent and fair pricing throughout the collection.
