January 2026

Welcome to this month's Trailblazer! We're excited to introduce several new stocking products across multiple lines—bringing fresh design opportunities, expanded options, and enhanced versatility to your showroom and projects. If you're interested in featuring any of these new additions, please reach out to your Conestoga Tile sales representative for information on display options and support.

The Following Pricelists are Included in this Edition of the Trailblazer:

To access our online Excel Pricelists please go to <https://www.conestogatile.com/pricelists>

expressive design, stylish smaller formats, and growing number of floor-rated options—including the new Siena and Sorbetto collections.

Ecstasy brings sleek modern design with expressive gradients and an optional linear relief for added sophistication. **Moonstone** captures the quiet beauty of natural landscapes, offering luminous hues that create serene, elegant interiors. **Nour**, inspired by traditional zellige, features vibrant colors and a glossy, light-catching finish that adds warmth and cultural richness. **Siena** blends vintage hydraulic-tile charm with a refined palette and floor durability.

Sorbetto introduces soft, cheerful tones and contemporary versatility, with formats suited for both walls and floors. A new countertop display showcasing all five series is now available. Please contact your Conestoga Tile sales representative for information.

Ape - We're pleased to announce the addition of five stunning new series to the Ape pricelist, expanding one of our most popular lines known for its

Conestoga Tile – We're excited to introduce the Conestoga Tile Private Label Program, featuring two premium made-in-the-USA porcelain series—**Lythos** and **Mystère**—curated exclusively for our customers. This private label collection brings together elevated design, exceptional durability, and timeless style. **Mystère** offers a refreshed interpretation of terrazzo, inspired by the vibrant artistry of the Venetian Carnival. Bold speckles, rich color depth, and two finish options—Structured for indoor/outdoor use and Semi-Polished for a soft sheen—make this series both striking and versatile. **Lythos** blends the refined elegance of French limestone with the bold character of Ambrosia stone. Delicate fractures, graceful veining, and natural depth give the surface a sophisticated, organic appeal ideal for contemporary design. Both collections are now featured in the new Private Label pricelist. Contact your representative for samples, details, or display opportunities.

Pricelists Continued:

Metropolitan Ceramics - Metropolitan Ceramics continues to exemplify American-made craftsmanship with quarry tile and kiln-fired thin brick products manufactured in Canton, Ohio. Backed by Ironrock's 150+ years of family ownership and industry expertise, Metropolitan's products have a long-standing record of performance, with millions of square feet installed across the country. The line includes two thin brick offerings: METROBRICK, a modular thin brick ideal for vertical surfaces, and Royal Thin Brick, a queen-size format with a tumbled, weathered appearance suitable for both walls and floors. The updated pricelist reflects a price increase for these products.

Serenissima - This updated Serenissima pricelist features two exciting new series arriving soon, along with a slight price decrease on existing lines reflecting reduced tariff rates.

City is the first new addition—a perfect synthesis of a style that continually reinvents itself while staying rooted in classic design. Inspired by 1950s Milanese architecture, City brings a fresh, versatile, industrial aesthetic to today's interiors. Its brick format is enriched with rich textures and two bold decorative options that add compelling visual depth. City is a glazed porcelain series stocked in six colors, offered in both matte and lux finishes, and suitable for residential and light commercial floor and wall applications. Also

new is **Everstone**, a collection created as a resource for biophilic architecture. Its lively surfaces glow with natural movement, enhanced by subtle embossing and material effects that intensify the stone's organic character. Everstone is stocked in two rectified sizes and four harmonious tones in a matte finish, with complementary square and hexagonal mosaics. Designed to flow seamlessly between interior and exterior environments, this series brings natural serenity to any project.

Stone Impressions - An updated Stone Impressions pricelist is now available on our website for customers with *Artisan Stone* displays. This update focuses on the Artisan Stone Tile line of quick-ship options and the Regency Collection.

TileWare - The new Tileware pricelist highlights expanded color options, added product lines, and increased purchasing flexibility. Tileware continues to lead the tile-industry category with waterproof anchoring accessories featuring hygienic, bacteriostatic surfaces—and this update further strengthens that position. Many products in the **Boundless Series** are now stocked in Bone, Dove Grey, and Ivory, expanding upon the original Super White and giving designers greater versatility. Boundless Shelving Solutions—including the 6" × 84" Curbing, Traditional Tee Hook, and Floating Shelf for Custom Niches—may now be purchased by the piece instead of by full carton for added convenience. We have also introduced several highly requested items across the **Promessa, Secure, Victoria, Structural, and Bella Vetro** series. Please note that existing Tileware products have received a minor price increase.
