

TIDES HDP

High Definition Porcelain®

Glazed Porcelain Floor & Wall Tile

TIDES^{HDP}

High Definition Porcelain™

BY floridatile

Florida Tile is proud to announce Tides^{HDP}. This new product line is a stylized interpretation of vein cut stone. Specifically a linear cut Travertine or Limestone known as "Georgette". This look in its natural form is a stunning linear play of tone on tone colors that create this contemporary look.

Using Florida Tile's HDP-High Definition Porcelain technology however, we not only reproduce this stone look, but we are able to let our imaginations go wild with bold color combinations that can't be found in nature. From bold Blues to Steel Gray and Dark Brown, we created contemporary colors that can be specified in any commercial space. Each color has a unique blend of complimentary colors within its veining to add interest and depth, as well as pair beautifully with other design finishes.

This glazed porcelain floor and wall is available in pressed 12x24 with a 3x24 bullnose for each color. We have also added a unique patterned M12 mosaic that rotates each chip 90 degrees, to create a wonderful checkerboard pattern. This product is Made in the USA of 40% post-industrial recycled content, it is Greenguard and Porcelain Tile Certified and meets the new DCOF AcuTest requirements to be installed in wet areas.

- **Marble, Travertine, Wood, Fabric, Text, Concrete**
- **Can duplicate any graphic image on a tile**
- **Allows for huge range of color and variation**
- **Graphics not repeated for over 100'**
- **8 times the graphic variation of previous process**
- **Glaze is durable and exceeds all ANSI/ASTM standards**
- **Graphic goes to edge of tile, eliminating "pillow" effect**
- **Trims can be matched exactly using the same glazing process**
- **Environmentally safe process is low maintenance with no waste**

High Definition Porcelain is an exclusive trademarked process by Florida Tile that utilizes the most technically advanced glazing system in the industry today, digital printing. This process has taken decades of painstaking work to bring the technology from the research and development laboratories to the production line. Continuing to be an innovator in the industry, Florida Tile was the first manufacturer to use this technology in the United States.

Similar to the revolution in the television industry, the digital printing process on ceramic and porcelain brings you the most realistic image possible, except it is on a tile. Much like the picture on a television screen, the graphics on tiles are made up of millions of small dots of color; the smaller the dots, the higher the definition.

Using a blend of real photography and artist developed graphics, the digital printing process uses over 500 injectors to print each tile. The use of digital images allow for an overall variation that is 8 times that of the previous process and creates a graphic pattern that won't be repeated for over 100'. The Florida Tile specific High Definition Porcelain production process utilizes this digital printing technology that is a huge leap forward in both resolution and pattern variation.

While the look is what draws your eye, High Definition Porcelain products from Florida Tile combine the best of both worlds, a rugged and low maintenance tile that looks just like the natural product it represents. One look and you'll know immediately you've never seen anything so real in a manufactured product. High Definition Porcelain, only from Florida Tile.

TIDES^{HDP}

High Definition Porcelain

BY **floridatile**

Typical Uses

Tides^{HDP} porcelain tile is ADA compliant and appropriate for all residential and commercial wall & countertop applications. This Florida Tile product will contribute to USGBC LEED points and the ANSI approved NAHB Green Building Points.

| Typical Properties ¹ (Floor) | ASTM | ANSI | Results |
|---|------------|----------|--------------|
| Coefficient of Friction ² | C-1028 | Varies | Dry 0.8 |
| DCOF Accutest | | Varies | Wet 0.6 |
| Durability Classification ³ | C1027 | >=0.42 | Pass |
| Glaze Hardness | Mohs Scale | N/A | Class IV |
| Break Strength | C-648 | N/A | 7 Mohs |
| Water Absorption | C-373 | 250 lbs. | 550 lbs. avg |
| Thickness | | <0.5% | <0.5% |
| | | | 10mm |

¹These values vary from lot to lot.

²Dry & Wet values from independent test laboratory.

³Class I Light Traffic Areas, Class II Light Medium Traffic Areas, Class III Medium Heavy Traffic Areas, Class IV Heavy Traffic Areas, Class IV+ Extra Heavy Traffic Areas (High resistance to scratches and stains)

V2 = Slight Variation
Distinguishable differences in texture and/or pattern with similar colors

Field Tile

| Nominal Size ¹ | Metric (cm) | Pcs./Sq Ft ² |
|---------------------------|-------------|-------------------------|
| 12" x 24" | 30x60 | .5 |

¹These values may vary from lot to lot.

²These values are based on actual sizes including the grout joint.

Trim

| Name | Shape | SKU | Nominal Size |
|----------|-------|-------|--------------|
| Bullnose | | P43N9 | 3"x24" |

Color Variations

Color reproductions in this printed piece may vary from actual tile colors. Final selection should be made from actual tile samples.
