	Dynamic C.O.F.	BOT 3000	> .42
	MOHS		7
	Breaking Strength	ASTM C648	> 250 lbf

The tile design team at Mediterranea has totally reimagined the look of wood in its newest porcelain tile series. Using high-definition graphics and trending colors, Mediterranea has fused raw aesthetic elements found in nature to create an exciting eclectic wood look never seen before - CORAL WOOD.

The all-new Coral Wood series features a beautiful rustic wood grain, showcased on rectified 8" x 48" porcelain tile planks. Mediterranea has utilized its Dynamic HD Imaging® technology to add the coloration of the most beautiful and rare corals, found on the living reefs off the Florida Keys. The final touch is the tile's special glazing process, which gives Coral Wood just a hint of natural metallic nuances — creating a product that is both stunningly beautiful, and unlike any other wood-look available in the U.S. market today.

Made in the USA, Coral Wood is commercially-rated and is the perfect selection for a distinctive, eclectic porcelain tile that stands apart in any designer setting. Coral Wood delivers the distinctive design touches you've come to expect from the award-winning design team at Mediterranea.
